REPORT

OF THE

BOARD OF VILLAGE TRUSTEES.

TO THE VILLAGE OF RUTLAND:

The Board of Trustees whose term of office commenced in April, 1877, was organized by the election of John B. Page as President, and H. L. Verder as Clerk.

R. N. Patch was elected Street Commissioner.

The Trustees submit herewith a list of all orders drawn by them upon the Treasurer, with statement in detail of the expenditures.

The aggregate sum of orders drawn the current year is.....	\$13,955 17
The debt for orders outstanding in April, 1877, was.....	6,037 13
Interest included in order renewed,....	490 53
	\$20,482 83
There has been paid of orders drawn prior to May, 1877,...	3,066 78
Of orders drawn the current year,.....	8,063 1
Debt for outstanding orders,....	9,352 89
	\$20,482 83

In the report of 1877, attention was called to the sum paid out of moneys collected by tax on the grand list for paying the interest on the water debt. This sum was found to be.....		\$6,342 46
The Treasurer credits as received from the Water Commissioners for repayment in part of this sum,.....		2,331 64
		<hr/>
Leaving a balance to be paid of.....		\$4,010 82
Interest to 24th of April, 1878,.....		296 51
		<hr/>
Due from Water Commissioners,.....		\$4,307 33

The board, through their committee, Messrs. Bates and Cheney, have settled with the collector of taxes, and the amount found due has been paid into the Treasury.

The Treasurer's report shows cash on hand... \$428 48

The board have drawn orders in settlement of damage in connection with School Street sewer for \$299.00, and there are two pending claims on the same account for \$750.00 upon one of which a suit has been brought. The situation and construction of School Street sewer is such that the village will be continually liable to these claims until funds are provided for a thorough repair or entire rebuilding of the same.

The orders drawn for expenditures in the fire department include for new hose \$1,805, and new hook and ladder cart \$567. It is not supposed any new material will be required in this department during the coming year.

The expenses for the current year we estimate as follows:

Fire department,.....	\$1,000 00
Gas for streets,.....	900 00
Other expenses, including night watch,.....	1,800 00
	<hr/>
	\$3,700 00

To provide for the orders outstanding, less the balances in and due the Treasury, including the estimate for the current year, will require a tax of forty-five cents on the dollar.

The highway tax being appropriated for repairs on the streets.

The reports of the Treasurer, Auditor, Chief Engineer and Water Commissioners are annexed, and the voters are referred to them for further details.

HENRY F. FIELD, *Village Treasurer.*

RUTLAND, VT., April 11, 1878.

Auditor's Report.

To the Village of Rutland :

Having examined the accounts of the Trustees, Water Commissioners and Treasurer for the past year, I respectfully submit a statement of the financial condition of the village.

WATER DEBT MATURING AFTER 1878.

Reservoir bonds due July, 1880,.....	\$5,000 00
“ “ “ 1881,.....	5,000 00
“ “ “ 1884,.....	5,000 00
“ “ “ 1885,.....	5,000 00
	<hr/> \$20,000 00

WATER DEBT PAST DUE AND MATURING IN 1878.

Water bonds past due,.....	\$4,700 00
Reservoir bonds past due,.....	5,000 00
Reservoir bonds due July 1, 1878,.....	5,000 00
	<hr/> \$14,700 00

The action of the village last April, contemplated the repayment, from the water fund, of the amount paid from village taxes, for interest coupons on reservoir bonds. Of this sum, \$2,331.64 has been refunded by the Water Commissioners, leaving a balance of \$4,307.33, (including interest) to be paid hereafter. If an arrangement should be made to extend the time of payment of the bonds now due and maturing, the liabilities for the water department would be as follows :

Interest due July, 1878,.....	\$2,082 00
Amount to be refunded to Treasury,	4,307 33
	<hr/> \$6,389 33

ASSETS.

Cash in hands of Commissioners,	\$235 62	
Value of water rents uncollected,	2,000 00	
	<u> </u>	2,235 62

Balance, \$4,153 71

This sum may be realized from the water rents for 1878, over and above the expenses of repairs, &c. It seems to your Auditor that some plan should be adopted to secure the more prompt payment of water rents into the treasury, thereby saving expense, interest and losses.

The other liabilities to be provided for during the ensuing year are as follows :

Trustees' orders outstanding,	\$9,352 89
Interest on same, estimated,	450 00
Trustees' estimate for current expenses,	3,700 00
	<u> </u>
	\$13,502 89

ASSETS.

Cash in hands of Treasurer,	428 48
	<u> </u>
	\$13,074 41

Deducting the repayment from the water fund, 4,307 33

There would remain a balance of, \$8,767 08
for which it will be necessary to provide payment. Upon the same basis as the last year's tax this will require a tax of 48 per cent. upon the grand list of the village.

All claims for disputed taxes have been settled.

The aggregate of village and highway taxes on the list of 1877, was,	\$9,689 95
Abatements allowed,	\$155 36
Collection fees allowed,	286 03
	<u> </u>
	\$441 39

Amount realized and credited in Treasurer's acc't, \$9,248 59

R. BARRETT, Auditor.

RUTLAND, VT., April 13th, 1878.

Engineer's Report.

To the Trustees and Voters of the Village of Rutland :
